SUMMARY

Results-oriented Frontend Developer with a passion for building seamless and engaging user experiences. Skilled in JavaScript, TypeScript, HTML5, CSS, React, React Native, Tailwind, and Python, with a strong foundation in modern front-end development.

Adept at collaborating with UI designers to create intuitive and visually appealing interfaces. Recognized for strong communication skills, a proactive problem-solving mindset, and a positive attitude in team environments.

Also experienced as a Backend Developer, proficient in GraphQL, NestJS, and Node.js, with a deep understanding of backend development and API design.

EDUCATION

BSc IT - Ghana Communication Technology University (2020 – 2024)

A-LEVELS – Havering Sixth Form College (2012 - 2014)

Turntabl Software Engineering Mentorship Programme (July – December 2021)

WORK EXPERIENCE

Backend Developer Intern | Zormor (May 2024 – August 2024)

- Developed robust and scalable backend solutions using NestJS, enhancing system reliability by 40%.
- Designed and implemented optimized GraphQL endpoints, improving data retrieval speed by 35%.

Frontend Developer (Part-time) | Chiwara Development (May 2023 – July 2024)

- Developed, tested, and maintained web applications using React.js, HTML, CSS, and JavaScript.
- Implemented responsive design principles to ensure optimal rendering across various devices.

- Integrated APIs, improving application functionality and achieving 40% faster data retrieval with enhanced system efficiency.

Frontend Developer | UniSalad (July 2023 – November 2023)

- Implemented UI/UX designs based on user specifications, enhancing overall user experience and satisfaction.
 - Developed reusable UI components using React Native, improving development efficiency by 30% and ensuring consistency across the application.
 - Integrated APIs seamlessly, enhancing application performance and reliability.
-

Projects

Pay As You Drive Client & Admin System (React.js | Redux | Tailwind CSS)

- Implemented user-specified designs, enhancing user experience and increasing user engagement by 20%.
- Integrated APIs to facilitate seamless data transfer between user and admin systems, improving service delivery and boosting customer satisfaction by 35%.

Movie Database (React.js | Node.js | Express.js)

- Designed and developed both frontend and backend, leading to a 25% improvement in application performance.
- Integrated APIs and databases, enhancing data reliability and reducing response times by 30%.
